APRIL 25, 2023
MEASURING LAW ENFORCEMENT SUICIDE

Workshop Planning Committee

- **Joel Greenhouse**, co-chair, Carnegie Mellon University
Statistics & Data Science
- **Vickie M. Mays**, co-chair University of California, Los Angeles
Psychology and Health Policy & Management
- **Brandon del Pozo**, Brown University
Medicine, Health Services, Policy and Practice, police veteran
- **Natasha Frost**, Northeastern University
Criminology and Criminal Justice
- **Janice Iwama**, American University
Justice, Law & Criminology
- **Jenn Rineer**, RTI International
Workforce Wellbeing and Effectiveness Program
- **John Violanti**, University at Buffalo
Epidemiology and Environment Health, police veteran

Workshop Goals (1 of 2)

- Assess current data collection systems and identify opportunities for improvement of:
 - Measurement of suicide in law enforcement (LE) and corrections officers and dispatchers
 - Collecting and investigating correlates associated with law enforcement completed suicide

Workshop Goals (2 of 2)

- Identify data practices and approaches for the measurement of LE suicide that provide accurate, high quality, comprehensive, and timely data for all.
- Introduce approaches for enhancing measurement of LE suicide by combining information from multiple data sources through data linkages that improve the quality and completeness of data based on a comprehensive data infrastructure strategy.

Overview: Day 1

- Federal data collection systems on the measurement of suicide among LE/CO
 - What is being collected in the different federal data systems?
 - Approaches, data quality, gaps
 - The role of occupational codes
 - Identifying potential correlates
- Reflections from the day
