

**Advances in Multimodal Artificial Intelligence to Enhance Environmental and Biomedical Data
Integration**

A Workshop of the Standing Committee on the Use of Emerging Science for Environmental Health
Decisions

BREAKOUT GROUP INSTRUCTIONS FOR WEBCAST ATTENDEES

JUNE 15, 2023 12:40 – 1:20 PM ET

[JOIN HERE](#)

The breakout sessions are a critical dimension to meet the workshop goals. Breakout sessions will enable workshop participants to engage in detailed discussion and idea exchange ideas about the limitations and opportunities to advance multimodal artificial intelligence for environmental and biomedical data integration.

DISCUSSION QUESTIONS

- From the talks and panels, discuss 2 or 3 concepts or technologies that have the potential to advance the field.
- What are the challenges/barriers in utilizing AI/ML for data integration? How can the challenges be overcome and what steps can be taken?
- Are there tools that would help you integrate AI/ML, environmental health data, or biomedical data in your work/research?
- What are the most exciting advances in AI/ML and data integration? What are the most promising applications?
- Who is missing from the table?
- List any outstanding questions you have that need to be addressed.
