

Committee on Examining the Working Definition for Long COVID

Second Committee Meeting

Agenda

Friday, April 14, 2023, 1:00 PM – 2:00 PM ET

Background: At the request of the Office of the Assistant Secretary for Health (OASH) and the Administration for Strategic Preparedness and Response (ASPR), a National Academies of Sciences, Engineering, and Medicine committee will conduct a series of public workshops to examine the current U.S. Government (USG) working definition for Long COVID and related technical terms.

Objectives:

- Compare and contrast existing definitions of Long COVID
- Identify key elements of a definition
- Hold an open session to hear from federal agencies on ongoing efforts to define Long COVID
- Consider the purpose of the evidence review and determine approach and methods
- Review and finalize stakeholder engagement activities, including questionnaire and focus groups content
- Identify information needs and future meeting topics
