

Building Resilience through Disaster Preparedness, Response, and Recovery

Dore A. Bietz – Tuolumne County, California

Emergency Preparedness and Response Capacities, Capabilities, Needs, and Priorities Among Tribal Nations and Communities

Tribal Communities are Resilient Communities

Survived every man-made and natural disaster thrown at us.

We understand, view, and implement emergency preparedness and response, including different terminology, framing, and approaches.

**Capacities, capabilities, and needs of Tribal communities to
prepare for, respond to, and recover from disasters and
public health emergencies.**

**What have we learned, how have we adapted and what are we
doing to recover.**

Best practices for integration of indigenous knowledge with local and state jurisdictions.

Same goal = Improve Emergency Operations Planning.

THANK YOU!
