

Charge to Workshop Speakers and Participants

Facilitating Development and Utilization Of
Genome-Based Diagnostic Technologies

November 15, 2011

Objective

OBJECTIVE

To address the differences in clinical evidence required for

- Regulatory oversight
- Coverage
- Reimbursement
- Guideline inclusion
- Clinical use

Goal

Clarify a pathway for successfully bringing a test to clinical use for the benefit patients

To Consider in Your Presentation

- What are your views of the described barriers to successful genomic test development?
- What are potential solutions?
- What are the obstacles to achieving those solutions?
- How can we overcome those obstacles?

Meeting Format

- Session I: Advancing Diagnostics Development
 - Speakers
 - Discussion
 - Speakers
 - Discussion
 - Speakers
 - Discussion
- Session II: Paths Forward
 - Speakers
 - Discussion
- Session III: Facilitating Convergence
- Session IV: Concluding Remarks

Charge to Speakers

“Life is full of opportunities and pitfalls.
The key to success is to seize the opportunities,
avoid the pitfalls,
and be home in time for cocktails at 6 PM”

Woody Allen
